About the College

Srinivasan College of Arts & Science (SCAS) was established under the aegis of Shri. A. SRINIVASAN, Chancellor, Dhanalakshmi Srinivasan University and Founder & Chairman, Dhanalakshmi Srinivasan Group of Institutions, Perambalur. The SCAS was started on 29th November 2004 as per the G.O No.: MS.477 and got affiliation to Bharathidasan University, Tiruchirappalli. The SCAS started with 6 U.G. courses has now blossomed into an institution with 17 Under Graduate programmes, 12 Post Graduate programmes and 04 research programmes. The college aims to provide higher education for rural backward students in the field of Arts, Science and Management studies. Our college has also recognized under the section 2(f) & 12B of the UGC Act, 1956.

About the Research & Development Cell

Research and Development (R&D) Cell at the SCAS operates with the mission to become a centre of excellence in education by focused research pursuits, through an interface with academia and industry. The cell aims to nurture research culture in the college by promoting research in emerging and challenging frontier areas of Arts, Management, Science, Technology, and Paramedical. It also encourages the students and faculty members to undertake the research in multidisciplinary fields. This in turn enhances the general research capability of budding technocrats by way of participating in conferences, seminars, workshops, project competition and so on. The cell is continuously functioning towards by conducting research events such as National Seminars, International Conferences, Faculty Development Programs, Writing Proposals, Journal Publication, Patent Filing, Workshops and many more such activities.

ICAMRGP-2022 Theme

The gist of the 'International Conference on Articulating Multidisciplinary Research and Grant Proposal' is to set up a platform to disseminate the timely required multi-pronged strategies and unprecedented advantages of multidisciplinary approaches to explore scientific problems outside of either normal or conventional boundaries. The conference will also facilitate a great place to learn more about grants, grant proposal writing, and granting institutions. To be concise and forthright, the 'International conference' is meant for researchers who are actively engaged in various mainstreams such as Arts, Management, Science, Technology, and Paramedical. The conference would provide an excellent opportunity to the participants by enlightening cutting-edge research in enlivening topics of these disciplines, highlighting significant strides in the research and as well the art of designing research grant proposals. The conference offers limited number of seats, which would be mutually shared by Faculty members, Research scholars, Industrialists, and Post Graduate students from Academic Institutions, Research Centers, and Industries at the National and International levels. The participants would be selected on a 'first-come first-served basis'.
