ABOUT THE COLLEGE

Srinivasan College of Arts & Science was established by Shri. A. SRINIVASAN, Chancellor of Dhanalakshmi Srinivasan University, Founder & Chairman, Dhanalakshmi Srinivasan Group of Institutions, Perambalur. The college was started on 29th November 2004 as per the G.O No.: MS.477 and got affiliation to Bharathidasan University, Tiruchirappalli. Srinivasan College of Arts & Science started with 6 U.G. courses has now blossomed into an institution with 17 Under Graduate programmes, 12 Post Graduate programmes and 4 research departments. The college aims to provide higher education for rural backward students in the field of Science, Arts and Management Studies. Our college has been recognized under the section 2(f) and 12 B of the UGC Act, 1956.

DEPARTMENT AT A GLANCE

The Department of Physics of Srinivasan College of Arts and Science provides a conducive ambience where students learn about the nature of physical universe and they participate in cutting-edge research opportunities. The department offers highly personalized physics degree programmes to prepare them for careers like scientists, educators and industrialists. We provide them platforms to exhibit their talents in class and research activities. We support and enhance their problem solving skills, Team Work and Research Areas.

We have qualified and skilled Faculty members who show active participation in Academic, Research and Extension Activities. The Department has well equipped laboratories to experiment and expertise in relevant areas.

Department faculty members are doing research in thrust areas of Condensed Matter Physics, Nano Materials, Crystal Growth, thin films and Solar Cell. The Department train their students and assist them for Placements in association with HRDC of the college.

ABOUT THE WORKSHOP

Science is often seen by students as demanding and difficult. Scientific ideas are not always easy to grasp, and their understanding sometimes requires concentration and hard work over a long period of time. So, the significance of science and technology has to be accompanied by a parallel growth in interest in these subjects and an understanding of basic scientific ideas and ways of thinking. The objective of the workshop is to enhance the charm and importance of the functional materials. This kind of workshop create a platform for students from rural and semi urban area to learn, understand and clear doubts in theoretical Physics from eminent speakers from reputed institutions.
